- Guest House - \$120k sprinkler project

# Housing Reconstruction Project

- BNL has obtained CD-0 approval. This means that DOE concurs that a mission "need" exists.
- BNL has submitted documentation for CD-1 approval. (the Acquisition Strategy) This approval would allow us to proceed with the RFP.
- Our Acquisition Strategy was summarily rejected by DOE and we were asked to re-submit the Acquisition Strategy in a BNL format. It was originally submitted in the format used by ORNL. We will be resubmitting in January of 2005 and will continue to push for the project until such time that we are told to stop by DOE.
